Spanish

French

PROFILE

I am a highly motivated junior full-stack developer with a strong foundation in web technologies and a passion for learning and growing within the software development field. I am seeking an internship opportunity to apply my skills in JavaScript, React, Node.js, and MySQL to real-world projects while contributing to the growth and success of a dynamic development team. I am quite eager to gain hands-on experience and further refine my skills through collaboration with professionals.

WORK EXPERIENCE

A Student

FEMTECH International Training Institute

- Worked collaboratively with fellow learners during my studies to complete software development tasks and projects.
- Focused on the development of both front-end and back-end components using technologies such as JavaScript, React, Node.js, MySQL, and REST APIs.
- Continuously excelled in completing course assignments and tasks, demonstrating problem-solving skills and an eagerness to learn.
- Completed rigorous readings as directed to support unit learning goals.

CERTIFICATIONS

Full Stack Web Development, In progress,
Femtech International Technology Institute

Expected completion: Once I finish my real-world project.
Though my web development lectures are done,
I can't get my certificate until it's complete

PERSONAL PROJECTS

Blog Website

Description: My colleagues and I built a project similar to Najjaloaded that can add blogs, delete blogs and so on!

Technologies used: JavaScript, React, Node.js, MySQL.

Role/Responsibilities: I created the back-end and database for this project!

Job-seeking website

Description: My colleague and I built a job seeking website where people can seek and apply for jobs and companies can post vacancies!

Technologies used: JavaScript, React, Node.js, MySQL.

Role/Responsibilities: I assisted in the back-end and front-end for this project!

INTERESTS

chess, Photography, checkers
